Plan for support & Curriculum Focus 2014/15

At Joachim's we have a clear philosophy that we want to provide children with a wide range of exciting and engaging learning opportunities that they may not always have access to. We also strive to ensure that all children equally make outstanding progress in their learning, through identifying need and under performance and putting in place additional resources and support programmes.

Early support strategies for those who need additional help in reading and number have also been partially funded through the pupil premium as well as more able children through projects such as the Brilliant Club.

Our extensive range of opportunities beyond the school day, enhance children's development. This grant has also contributed towards the costs of these activities that were previously funded by other grants.

Our funding plan for September 2015 to August 2016 has therefore been targeted in the following ways:

Measuring the impact of PPG spending

Our school data, which is published on our school website (www.st-joachims.newham.sch.uk) shows that we are a high performing school. We believe that every experience children have has contributed towards their outstanding achievements, including those funded by this grant.

We will continue to use this grant to enrich children's experiences to help them become increasingly confident in all aspects of learning and develop their independence and resilience.
